Motion: Many things diſcuſſ'd about it by *Hon. Fabri*; who particularly examines the Rules of Motion deliver'd by *M. Hugens*; who alſo denieth, that a Body Horizontally projected comes at the ſame time to the ground with another fallen down perpendicularly: and who conſiders likewiſe the Principle of the Motion of Reſtitution.

P.

Bigge Oyſters and Cockle ſhels *Petrified* on the Rocks in the remote parts of France. 5. 183.

R.

An Unuſual *Refraction* diſcover'd by *Eraſm. Bartholin* in a Chryſtal-like Body to be found in *Iſland*; where occur many conſiderable Obſervations, Experim. and Reflexions. 67. 2039.

Reſpiration examined by *M. Boyle* in Machina Boyliana N. 62. and N. 63. How long Ducks laſt in Machina. 62. 2011. The Phœnomena afforded by Vipers, Frogs, and Kittlings. p. 2013, &c. Tryals about Air harboured in the pores of water. 2019. Shell fiſhes and Scale-fiſhes. 2023. *A* Bird and Frog, both wounded in the *Abdomen*, tryed 2026. The Motion of the ſeparated heart of a Cold *Animal*, tryed. 2027. The compariſon of the times wherein an *Animal* may be killed by Drowning, or by withdrawing the *Air*, tryed in a Greenfinch, a Sparrow, and a Mouſe. 2028. &c. That water Fowle, (at leaſt Ducks) can live longer under Water than Land-birds. 2029. Tryals of a Viper in Machina, and afterwards under water, and ſome reaſons render'd, why the longer ſurviving in Machina, does not ſufficiently prove, that Suffocation does not kill Animals faſter than the deprivation of *Air* 2031.

Tryals made in reference to thoſe Diſeaſes and Diſtempers, which are thought principally to affect the reſpiratory Organs N. 63. p. 2036. By a Linnet, a Lark, a Greenfinch, a Viper. 2037. *A* Digreſſive Experiment concerning reſpiration upon very high Mountains. 2038. Obſervations on an *Animal* in changes of rarity and denſity 2039. *An* unſucceſsful attempt to prevent reſpiration by the production or growth of *Animals* in Machina 2040. *A* Digreſſive Experiment concerning the Expanſion of Bloud and other *Animal* juices. 2043. Of the power of *Aſſa-faction* to enable *Animals* to hold out in *Air* by Rarefaction made unfit for Reſpiration. 2045.

Reaſons why theſe laſt Tryals are to be reiterated for fuller ſatisfaction; and that *Air* unfit for Reſpiration may retain its wonted preſſure. 2046. How neceſſary *Air* is to elevate the ſteams of Bodies. 2048. Tryals made of two ſorts of white Snails, without ſhels, on an Eft, and a Leech. 2049. &c. What hapned to Reptiles, as Caterpillars, in Machina. 2050. Winged Inſects, ordinary Flyes, Fleſh-flyes, with their heads cut off, and otherwiſe Graſhoppers, Shining Beetles, Butterflyes, tryed 2052. &c. Ants, Mites, and ſmalleſt Inſects tryed; and of the neceſſity of Air to the motion of ſuch ſmall Creatures. 2054.
